LOCALS.

Rescued From Death.
William J. Connelley, of Somerville, Mass., says: In the fall of 1878 I was taken with BLEEDING OF THE LUNGS followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WILLIAM HALL'S BALSAM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and 30 days later I was able to go out. I write this hoping some one afflicted with Consumptive Lung will take DR. WILLIAM HALL'S BALSAM, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness.

COAST CLIPPINGS.

The Bald Mountain Drift Company, Sierra county, has declared a dividend of six dollars per share, aggregating \$21,000.

The American Hydraulic Mining Company at Morristown, Sierra county, is working eighty-five men and forty more will be added to the force very soon.

Proceedings have been commenced to collect from the Captain of the Strathairly \$17,000—the fine for an overload of 300 coolies.

C. P. Huntington has offered \$5,000 to the Central and Southern Pacific Railroad Employee's Mutual Benefit Association wherewith to get up a library.

Chico Record, June 7th: Yesterday morning, while running a derrick on the Morse ranch, near Butte City, Charles Pate fell from the scaffold a distance of fifteen feet to the ground, receiving injuries which may prove fatal. Pate is a son-in-law of Captain Morse.

It is stated that the charterers of the steamer Strathairly received \$45 per head for the 1056 Chinese recently landed in San Francisco, making a total of \$47,920 receipts from that source, aside from freight. The Government claims for infraction of the laws, if enforced, will materially lessen the profits of the voyage.

Kitchen Knowledge.
Here are some facts about general cooking which are well worth knowing:

That ripe cucumbers make good sweet pickles.

That clabbered milk is better than water for freshening salt fish.

That a piece of cork is better than cloth for applying brick to knives.

That apples which take a long while to bake should have a little water in the pan.

That if we wish to prolong our lives, we should put one day between washing and ironing.

That salt pork will be as nice, nearly as fresh, if soaked in sweet milk and water, in equal parts.

The liver should be thrown into boiling water after being sliced thin, and then fried in lard or dripping.

That pie crust will not be soggy if it is brushed over with the white of an egg before the fruit is put in.

Wash pantry shelves with hot alum and water to rid them of ants, waterbugs and other troublesome insects.

Stove blackened when entirely cold will keep the clean look a great deal longer than when they are polished when the stove is warm.

That half a cup of vinegar in the water will make an old fowl cook nearly as quickly as a young one, and does not injure the flavor in the least.

That tough beefsteak may be made eatable by mincing it pretty fine with a chopping knife and cooking quickly in a pot with a close cover to prevent the steam from escaping.

Sale of Jerseys.
The second auction sale of Jersey cattle from the herd of William Simpson of New York city took place recently. Thirty-seven head brought \$20,715, twenty cows and heifers averaging \$418. The leading price of the day was \$2,300, paid by Paul Sogbel of Hyde Park, N. Y., for the ten-month-old heifer Alpha Queen.

A. B. Darling of New York city paid \$2,000 for the three-year-old cow Island Countess. An excellent price for a bull calf was \$1,650, paid by H. S. Muldrow of Washington, D. C., for the four-month-old animal Zalmia's Mercury.—Baltimore Sun.

"It pleases me to state that St. Jacobs Oil cured my father of chronic rheumatism. Many others in our section have been cured by this most wonderful liniment," writes Mr. G. O. Couvillon, P. M., Couvillon, La.

EDITORIAL NOTES.

Beef and beef cattle are higher now than at any time since the close of the war. At this time last year the best native cattle sold in St. Louis at \$5.70 to \$6 per hundred weight. They now command from \$8 to \$8.75. Last year the best Texas steers sold in St. Louis at \$4.75 to \$5—they are now worth from \$6.26 to \$7. In Chicago last Saturday choice beef cattle sold at \$13.50 per hundred weight on the hoof at the stock yards; porthouse steaks were 30 cents per pound at the markets; sirloins, 25 cents, and round steaks 16 cents. This is the highest price beef has ever reached in Chicago, and the probability is that it will go still higher. Farmers are sending their dairy cattle to the market, and the result will be high-priced butter and milk, and a large market for oleomargarine. This is a bad outlook for the people who have to buy and pay for beef, and it adds to the hardships of those whose incomes are small and fixed, or to wage earners whose wages have not been advanced.

A letter from Luning, on the Carson & Colorado railroad says: Luning may be said to be the base of supplies for four mining districts. Silver Star district lies almost directly north; West Boston, the once lively camp, on the south; Santa Fe, a promising mineral region, on the east, and the fast becoming familiar district of Gardfield on the west. The latter is plainly visible from the town although situated eight miles away in an air line. Piles of ore, in sacks and ready for shipment, are stacked about the platform at the depot, giving the place an air of permanency, from a mineral-producing standpoint.

The following is from a circular of the Oregon Railroad and Navigation Company, in answer to one of many questions propounded by intending immigrants: Farm labor, \$1 a day and board; harvest work, \$1.50 a day. On the Sound wood-choppers earn from \$60 to \$90 a month. All good hands find work on railroads at the following prices: Common laborers, \$1.75 to \$2 a day; foremen of gangs, \$75 to \$100 a month; blacksmiths, \$3 to \$4 a day; carpenters, \$3.50; tracklayers, \$2 to \$3.50; team and driver, \$4.50.

The Irish bishops condemn illegal agitation in Ireland. They point out that what is morally wrong cannot be politically right. It is the indisputable right of the Irish to live on their own soil. It is the right and duty of those oppressed, either by State or by individuals, to seek redress by lawful means. On these grounds alone the national movement has the approval of the priests and bishops and even the Pope and all just and generous men without distinction of race or creed.

A member of the British Admiralty, recently, in a paper read before the Institute of Naval Architects, stated that of Great Britain's direct trade with the United States from 1850 to 1863, two-thirds was done by American shipping; in 1880 the total trade was three times as much, but only one-fourteenth of it was done by American vessels, seven-ninths being in British hands.

It is said that Guitaen is losing flesh. The Cincinnati Enquirer hopes that he will have strength left to break his neck.

—There was a serious riot in Alexandria, Egypt, yesterday, in which 20 persons were killed and the British Consul wounded.

—The House has concurred in the Senate amendment to the Army Appropriation bill fixing compulsory retirement in the army at the age of 64 years.

—At Bradford, Pennsylvania, the furnace of Thompson's steel works exploded this morning, injuring Assistant Superintendent Allen and three other men.

—Great excitement prevails at Cohoes, New York. Three thousand strikers gathered about the cotton-mill gates and threatened rioters. The entire police force is on guard.

D. L. Hall, Secretary of the Chicago Driving Park Association, has been in St. Louis the past week, in attendance on the races. While in St. Louis he contracted with the railway companies for the transportation of over 150 running horses, riders and grooms in 25 special cars, all to arrive here to-morrow or Wednesday for the coming meeting. The celebrated California stables of Baldwin and Winters, with the Duchess of Norfolk, Leo and other Pacific slope flyers, will arrive here to-day. The rest of the stables from the East and from Pittsburgh and Lexington will arrive the latter part of the week, and by Saturday there will be fully 300 horses at the Park awaiting the races. This great running meeting begins June 24th.

FOREIGN.

The Alexandria Riot.
LONDON, June 12.
The Admiralty has received a dispatch in confirmation of the report of the killing of the engineer of the Superb by rioters. The fighting at Alexandria, except the deliberate attack upon the Consuls when proceeding to the residence of the Governor, seems to have been confined to Arabs and Levantines. No English residents are reported wounded. The Times correspondent at Cairo says a large responsibility for the riots rests upon Arabi Pasha. Dervish Pasha had summoned him to resign and there seemed no alternative but submission or defiance; but since the riots broke out Dervish Pasha has appealed to Arabi Pasha as commanding the only available force to restore order.

Opposed to Coercion.

—The Liebig Malt Extract.

RECOMMENDED BY PHYSICIANS of the highest eminence as a food and tonic in cases of General Debility, Nervous Depression, Rubeoloid Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and enables a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from indigestion and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses nourishment the Extract will prove an excellent substitute for food. It neither poisons the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weakness of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and restores vigor.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative, and especially those who are afflicted with Consumption, will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of the food, and to convert it into nourishment to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Food Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved likeness of Kaiser von Lome, and a signature of his signature, as well as of A. VOGELER & CO., Barmen, Germany, Sole Agents for America.

SKIPPED.

A Deserter Outwits Two Vigilant Officers and Vanishes.

Sergeant Cassidy and Corporal Bachelor, from Company H at Fort Bidwell, went to Alcatraz a few days ago with two prisoners, deserting soldiers. They returned yesterday morning, and as soon as they landed they began to fill up their tanks with cheering beverages. During their cruise among the saloons they ran across a fellow soldier from the fort who was stopping at the Palace, in citizen's dress, under the name of Burns, while his right name was McCormick. The Corporal and Sergeant worked him for all the money he had, and when it was all gone, they arrested him as a deserter, and put irons on him, saying it was a military necessity. They took their prisoner to a room in the Arcade, and while the Corporal was ginning up down stairs, the Sergeant was watching the prisoner up stairs. By and by the former got too full to take his turn at sentry duty, and the Sergeant's coppers getting hot, the latter slipped down for a drink, leaving the key of the irons under the pillow within reach of the prisoner, who released himself and skipped out. Then the Sergeant and Corporal had a riot all to themselves, and called each other hard names, each accusing the other of setting the deserter free. The Sergeant flourished his pistol, which was promptly taken from him by Ben Small. They are both old soldiers. Cassidy has been twenty-four years in the army and Bachelor fifteen, and they were better dressed than any soldiers ever seen in Reno—and considerably drunker. They left for the fort this morning, wondering what had become of their prisoner, who doubtless got tired of packing a Cheap John's shop for sixteen dollars a month.

PLUMAS ITEMS.

The following are taken from the National of Saturday:

A subscription paper has been circulated during the past week, and pretty generally signed, to raise money to build a new road from Elizabethtown over Emigrant Hill to Newtown Flat.

Two men named Brady and Davis indulged in a fight at Jamison this week, in which knives, stones and other warlike implements were used, and the combatants severely damaged.

The Trustees finished up the census this week, and this District has 137 children between the ages of five and seventeen years, sixty-eight boys and sixty-nine girls. There are fifty children in the District less than five years of age.

On Saturday last, as Will Andrews was going up the grade on the Spanish Ranch road, the horse he was driving became frightened at an ox team and trucks, and backed over the grade with the buggy, going down some sixty feet into the creek. Andrews jumped from the buggy before the horse went over. The horse was not badly injured but the buggy was a complete wreck. The accident occurred at "the slide," just above the Devil's Elbow cabin.

Fun for Everybody.

The programme at the Fair grounds, arranged for the Fourth of July will be very interesting. A grand calithumpian parade will be a very amusing feature. The ladies' tournament for a purse of \$25, to be given to the lady most skilled in the art of horseback riding will be interesting. Two trotting matches will come off and three running races. The best horses in the State will enter the contest. The programme has been carefully arranged. Six hundred dollars in prizes will be given away. It will be under direct control of the Trustees of the society. Read advertisement in another column.

Excursion to Carson.

The eleventh annual excursion of the Virginia, Carson and Reno Turnverein will take place at Treadway's Park, Carson, Sunday, June 18th. Every arrangement has been made to make the picnic a success. Teams, from the several military companies in the western part of the State will attend to contest for the prizes offered by the societies. All kinds of games will be introduced on the grounds. Don't fail to go.

"Our Goblins."

Mitchell's Pleasure Party will offer a treat next Saturday evening. Their hodge-podge of music, farce and dancing, "Our Goblins, or Fun on the Rhine," has all of the old fun, and some that is new, in the form of a comical burlesque society comedy. The piece is crowded with mirth-provoking extravagance, and is bound to satisfy audiences that have not already had enough of that sort of entertainment.

Poor "Needles."

The eminent tragedian drifted into town yesterday in a state of beastly sobriety, and in a few hours was royally drunk, declaiming to the assembled multitude on Commercial Row. This morning Constable Avery dragged him off and dumped him into the sweat-box.

The Antelope Mine.

An important development has been made in the Antelope mine. At the depth of 250 feet a large body of ore has been found that will mill \$600 to \$800 per ton in free gold. This will stir up mining matters in that vicinity.

TRUCKEE ITEMS.

Desultory Squibs From a Prosperous Lumber Camp.

The following items are scooped from the *Republican* of Saturday:
Several large mule teams belonging to Travis & Epperson arrived here Thursday from Mason valley. These gentlemen have taken a large logging contract from the Truckee Lumber Company.
Jim Burge's new race track near Schaffer's sawmill is completed, and the first racing will take place on Sunday, the 18th inst. The track is 36 feet wide, circular in shape and a half mile long. It is enclosed in a substantial board fence.
Lucky Baldwin is at the lake personally superintending the improvements on the Tallac House.
There will be a Fourth of July celebration at Glenbrook, Lake Tahoe.
Within the past few days several of the prominent dairymen have arrived from below with their stock. J. J. Jeger arrived here last night with a band of milch cows and calves, having driven them over the Summit.
The working force at the new round house has been increased to 60. The entire foundation is completed, and the walls are going up rapidly.
An order of Chosen Friends is to be instituted at Boca. About 25 charter members have been secured.
An average cut of lumber of Schaffer's mill is 38,000 feet a day.
Lonkey & Smith will commence sawing at the Banner mill next week. The Prospector creek mill will start up a few days later.

Crawford Pulled in by a Tahoe Trout.

The Carson *Appeal* of Sunday says: About two weeks ago Superintendent Crawford of the Mint had occasion to go to Glenbrook on some business, and while there, he and Superintendent Rogers of the Lake Tahoe N. G. R. R. Co., went fishing on the lake. They took a small boat, and when in fourteen feet of water, as Mr. Crawford was about drawing in a fish, he lost his balance and fell into the water. For a second or two he was completely out of sight, but when he came to the surface he boldly struck out for the boat, which, as can be imagined, he made with some difficulty. It is no easy matter for a person of Mr. Crawford's weight to swim in 14 feet of water like that of Lake Tahoe. His fall was noticed by a large number of friends, who were greatly alarmed; but when they saw that he was master of the situation, the accident caused much merriment.

Fourth of July Ball.

The military and civic ball to take place on the night of July 4th is advertised in to-day's GAZETTE. The committee of arrangements are making extensive preparations for a good time. The ball will be very largely attended. Everybody is going. The Reno guard need a uniform, and in order to get one the company give the ball in the hope of making a little money to go towards buying one. If you buy a ticket you are sure of having \$2 worth of fun. Stand in.

The Place to Go.

The GAZETTE is in receipt of a large lot of paper and stock, etc., for doing job work, bought at a clearance sale at greatly reduced rates, and the office is better prepared than ever to do book work, or in fact any job work at exceedingly low prices. We have the best job printers and pressmen on the coast employed at this office. With low prices and first-class mechanical skill jobs can be promptly and satisfactorily executed.

Dr. Hall's Health at Home.

Your attention is called to the advertisement of this most valuable medical work which ought to be extensively circulated. Dr. Hall's reputation is a sufficient guarantee that it is what it purports to be. Thousands of families are so situated, especially those in the country, that they cannot readily employ a physician, when the exigencies of the case may be pressing and imperative. For all such a book like this is indispensable, and worth many times its value.

Recruits Wanted.

The *Tribune* says: "There hasn't been a baby born in Carson so long that it seems to be a lost art." It is too late to do much this year, but if the good people of that beautiful little town would "brace up," a good crop of babies could be gathered early in the Spring of '83.

Sad News.

Dr. Fred. Hutchins received the sad news of the death of his father, Silas Hutchins, who died at Canton, Maine, from the effects of injuries received from a fall. The old gentleman was at work constructing a flume on a high trestle, when he lost his balance, fell to the ground and died shortly after.

The Track Walker.

The track walker for the Central Pacific Railroad Company here is required, armed with a wrench and flag, to leave Reno at a quarter past five a. m. and walk over the road to a point six miles east by the time the Atlantic express arrives there.

Committee Meeting.

The Fourth of July committee of arrangements are requested to meet at Judge Young's court-room this evening at 7:30 o'clock sharp.

A VILE CRIME.

The Criminal Intimacy of a Father with His Little Daughter.

[Eureka Sentinel, June 11.]

Yesterday afternoon Constable Penrose brought down from Ruby Hill a 12-year-old girl, who swore out a complaint for incest against her father. She tells a sickening story. Her name is Minnie Eustice. She was 12 years old last month. Her father's name is James Eustice. He is a miner, and has been employed in the Richmond mine. He has three children, Minnie, and two others, a five-year-old son and a little daughter two years of age. His wife died the 15th of last November. He professed great grief over the bereavement and appeared inconsolable. She had not been in her grave a week, however, before he seems to have buried all decency and became a monster.

On the 22d of November he gave way to his unnatural and brutish lust, and by force outraged his daughter Minnie, not then 13 years old. She says he has repeatedly done the same thing since, and always by violence.

She is a mere child in size and appearance. She is rather small for her age. She is a dark brunette, but has a clear, rich complexion. Her features are good, and she is what would be called a rather healthy, nice-looking little girl. She has very large, intelligent, brown eyes, and seems to be a very bright child. Since her mother's death she has done the work of the house and taken care of the other children.

When the complaint against her father was read to her, Justice Harmon asked her if she understood what was meant by it. She said yes. When he asked her if she understood the nature of an oath, she answered: "Yes; it means that if I don't tell the truth, you'll send me to Carson." She then signed her name to the instrument, wiping the tears from her eyes first in order to do so. While this was going on the excitement on the street had brought a crowd to the front of the office, and the Judge ordered the door locked to keep out the prurient throng. After signing the complaint and re-asserting what it contained in answer to questions by the Justice, Minnie Eustice, joined by two girl companions of her own age, started home and walked back to Ruby Hill.

It seems that the horrible crime had been known on the Hill for several weeks, but no one spoke to Eustice about it until yesterday, when a friend talked with him about the stories in circulation concerning him. He did not deny the heinous crime, but only exclaimed, as though in the utmost confusion: "What shall I do? What shall I do?" One of his friends advised him to run away, which advice he took and skipped out about 4 o'clock in the afternoon, towards Adams Hill.

Eustice is well known here. He is a good singer and has a fine tenor voice. He used to sing in a quartette at political meetings in the late State election. He is a small, indifferent looking man, between 35 and 40 years of age. That he would have turned out to be such a fiend never was contemplated.

Efforts had been made, but in vain, to have his daughter complain against him. But yesterday her ignorance of the ways of the law was taken advantage of to induce her to do so. In order to get this means of proceeding against him she was told that if she would swear out the complaint he would be allowed to escape. She did so, when the officers, Sheriff Kyle and Constable Penrose, immediately went in pursuit of him on horseback.

The affair has excited the profoundest indignation and disgust in the community, especially so when it was told that by intercourse with her father the poor girl had become enceinte. This is an unfounded story and cannot be true for physical reasons, the young victim not yet having arrived at puberty.

Nothing else hardly was talked of on the streets last night, and if it had not been known that the brute of a father was beyond their reach the excited crowd would probably have hunted him out and given him a hanging of their own in anticipation of justice in the regular course of the law.

The officers returned at 9 o'clock after a fruitless search for the fugitive. Sheriff Kyle has made every arrangement to secure his arrest to-day, if he has not gone out into the country. If he reaches the railroad he will be caught there, as telegrams have been sent all along the line to intercept him. Mr. Kyle authorizes us to say that he will pay \$250 for his arrest and delivery to him at the jail in Eureka.

A Large Drive.

The largest and most successful log drive that has ever been made on the Truckee river, says the *Republican*, has just been completed by George Marsh and J. E. Vaughn. Seven million feet of logs were driven down the Truckee river a distance of ten miles in thirty-five days. The crew, consisting of twenty-five men, are said to be the best that have ever been got together on the Truckee river. A large portion of the men have been at work in the woods and on the river in this section for the past ten years. Two million feet of the logs are for the Pacific Lumber and wood Company, and the other five million are for the Boca Mill Company. Messrs. Marsh and Vaughn, we are informed, will clear over \$1,500 on their contract.

The "Breeder and Sportsman."

J. C. Simpson, well known to all sporting men on the coast, will, on the first of July, issue the first number of the *Breeder and Sportsman*, a journal to be published in San Francisco to advance the breeding interests of the Pacific Coast and to elevate and popularize out-door sports. Mr. Simpson is high authority—probably the best in America—and it is his intention to make the paper first-class in every respect. The farm, especially the breeding of domestic animals, will have the first place.

The turf and track will be awarded the prominence they are entitled to. Shooting, fishing, coursing, boating—all, in fact, of the recognized, legitimate pastimes of the American people will have a place.

The Pacific Coast is an empire in itself. For the breeding of fine stock of every description it has advantages which cannot be excelled, and the *Breeder and Sportsman* under the able management of Mr. Simpson will be of incalculable benefit to farmers and stockmen.

Rebellious Ores Worked.

A company at Burlington, Iowa, has sent out to A. R. Frame, San Francisco, for a ton of ore from Meadow Lake, to work it by a new process gotten up by A. T. Hay, the steel manufacturer. They say there is no mistake about it working satisfactorily. The same parties are making inquiries about Gotlin, Fleece and Jones & Kinkaid.

The Comet.

The comet has been a godsend to the festive family man. He stays out at night until he works his cocktail route for all there is in it, and when he tumbles into the door after a long confab with the front gate, he murmurs something about "booful stars," and the confiding wife blames the comet for her husband's peculiar condition.

Post Mortem.

Dr. Waggoner, assisted by Dr. Lewis, made a post mortem examination of the body of Thomas Holden this morning at 10 o'clock, and found he died of puerperal meningitis, or inflammation of the membranes of the brain. Organic lesions were diagnosed by Dr. Waggoner weeks ago.

Careless Shooting.

A lady and gentleman walking along the railroad track yesterday narrowly escaped the bullets of a party of pistol-practitioners, who were shooting at a target within the city limits. The gentleman should have taken a club and waited the stuffing out of the hoodlums.

Coats Tavern.

M. E. Coats has hoisted a handsome sign in front of his hotel with the words "Coats Tavern" in large gilt letters. He don't believe in new-fangled things, and for that reason calls his house a tavern instead of a hotel.

Happiness For Two.

A wedding to-morrow. Reno loses one of her best and prettiest young ladies. "It is an ill wind," etc. What is Reno's loss is Bodie's gain, and so it will continue to the end of time.

Special Meeting.

The Reno Branch of the Irish National Land League will hold a meeting on Tuesday evening, June 13, at 7 1/2 o'clock. All members and those wishing to become connected with the League are invited to attend.
